OFFICE PARKING

QUALITY, DURABILITY AND RELIABILITY – NO TERRAIN TOO TOUGH

Forget tough days at the office – whether faced with difficult terrain or the stresses of everyday life, nothing can faze the new Hilux. That's because this pick-up is tougher than ever. Building on its legendary strength and reliability, the Hilux frame and body structure have been redesigned to ensure toughness, while a stronger, wider under-body now offers greater protection. In fact, all the components of the Hilux are made to withstand the most rigorous tests. The new frame also contributes to improved handling and ride comfort, working hand-in-hand with the new suspension and the newly designed gear ratios. To help you get through challenging environments, you can always rely on Active Traction Control (A-TRC) and the rear differential lock to ensure optimal traction. All these refinements add to Hilux's unique sense of effortless driving, on- or off-road.

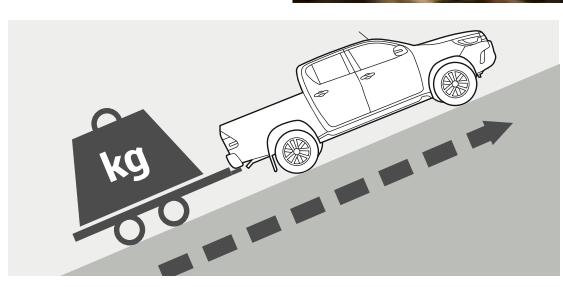

Hill-start Assist Control (HAC) maintains the brake force for up to five seconds after the brake pedal is released to give you a smooth start on steep inclines – without rolling back.

CEREAL FOR BREAKFAST

WORK HARD, TOW EASILY

They say breakfast is the most important meal of the day. So if you wonder where the new Hilux gets its strength from, it's simple: this remarkable pick-up is designed first and foremost as a workhorse with a towing capacity of 3.5 tonnes. While engine torque has been increased, the cooling performance of both engine and transmission have also been improved for effortless towing. Whether you want to tow grain, another vehicle or a caravan, the new Hilux tackles it with ease. It's also equipped with Trailer Sway Control (TSC) to ensure the vehicle stays steady when faced with crosswinds or changing road surfaces.

With increased engine torque and 3.5 tonnes towing capacity, the Hilux tows the toughest load effortlessly.

Model shown: Hilux Double Cab – Icon

Model shown: Hilux Double Cab – Icon

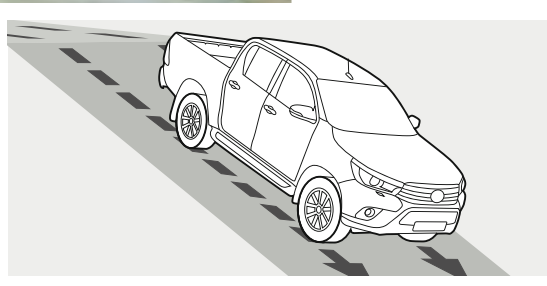

GROCERY STORE

MORE CARGO SPACE, MORE POTENTIAL

You can never have enough of a good thing. The new Hilux can carry more than ever thanks to its 1 tonne payload. The deck area has also been redesigned and increased, giving you more space to carry bulky cargo. The deck measures up to 2315 mm in length and 1575 mm in width*. It also features steel plate brackets on the tailgate struts to withstand the heaviest loads. Plus, tie-down hooks fitted to the deck interior help secure your cargo.

* Single Cab deck 2315 mm (length), 1575 mm (width); Extra Cab deck 1808 mm (length), 1540 mm (width); Double Cab deck 1525 mm (length), 1540 mm (width).

‡ Excluding Active grade.

Downhill Assist Control (DAC)‡ helps you tackle a steep descent with confidence. It applies individual brakes to maintain its low speed and to keep the vehicle stable, so you can focus on steering and avoiding any obstacles. It also works when reversing, for even safer driving.

PLAYTIME

MEET THE TORQUE MASTER

The new Hilux challenges the perception of power with its brand-new diesel engine. The 2.4 diesel performs superbly thanks to new torque technology which dramatically increases torque in low to medium speed ranges. It also contributes to Hilux's excellent towing capacity. This engine has been designed to keep noise levels down and efficiency up. In fact, the refined sound insulation can make you forget that you're driving a pick-up. The same is true for the efficient new 6-speed manual and 6-speed automatic transmissions: it adds to the premium SUV-style driving sensation.

The 2.4 diesel engine demonstrates excellent performance particularly in low to mid rpm torque ranges with outstanding acceleration as a result. Fuel efficiency has also been enhanced, while noise levels are kept to a minimum.

BBQ WITH FRIENDS

SMOKING HOT DESIGN

Few pick-ups are as proud to add mud or sand to their exterior as the new Hilux. Its rugged design is made to look its best on any job, challenge or outing – blazing hot or icy cold. This is Toyota signature design at its most audacious, full of sharp design angles that reinforce intelligent toughness. Everything from the bold grille – now integrated into the bonnet for a powerful, seamless look and framed by LED lights* – to the muscular wheel flare and the dynamic sidelines shouts premium power. The chrome detail* along the windows and a wide choice of wheels add eye-catching highlights.

Strong features all round: LED daytime running lights and LED low-beam projector headlights* wrap around the fender for a wider, more muscular appearance.

* Excluding Active and Icon grades.

Model shown: Hilux Double Cab – Invincible

INTO SPACE

TOUGH OUTSIDE, COMFORTABLE INSIDE

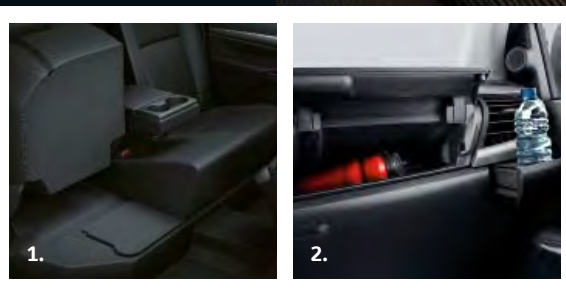

This pick-up is all about quality surroundings and attractive, durable materials paired with the latest technology to maximise your comfort. A first-in-class electronic control to reduce body pitch and bounce ensures the ride feels as smooth as in a premium SUV. Equally, the newly designed height-adjustable* seats offer greater comfort and support, while the height- and reach-adjustable steering wheel can be set to your ideal seating position. Dual-zone automatic air conditioning[§] and a clean air filter are also available and there's even a 220V outlet* in the centre console to keep your electronic devices charged.

(1) The rear seats are split 60:40 and can be tipped up for added cargo space.[°]
(2) Whether you're heading off-road or to the office, the cool box above the glove compartment keeps your drinks chilled. Hilux is generous with an astounding 11 storage areas positioned around the cabin.

* Excluding Active grade.

MISSION CONTROL

A NEW DIMENSION FOR PICK-UP TECHNOLOGY

The new Hilux is equipped with a range of innovative technology, designed to make every journey more relaxing. Take the tablet-style Toyota Touch® 2 screen*, which combines plenty of multimedia features. It can be hooked up to a refined audio speaker system, while you adjust the volume via the steering wheel. Toyota Touch® 2 with Go[§] adds enhanced full-map navigation as well as class-leading connected services, delivered through its wide range of apps.

In addition, the enhanced multimedia offering available on Invincible X grade includes features such as 3D maps, voice recognition and text-to-speech.

Another Hilux first, the new 4.2" TFT screen* in the instrument panel incorporates 3D messages to help you drive more efficiently. It also holds the trip computer that displays essential journey data. All these functions can be easily accessed via the handy steering wheel controls.

Toyota Touch® 2*

This multimedia system will allow you to experience a world of information and entertainment in a stylish tablet-style 7" display. Simply flick through the screens to access the multitude of functions.

Multi-information display*

The new multi-information display gives you access to essential journey information such as distance covered, average speed and fuel consumption. (Image shown represents Active, Icon and Invincible grades.)

Model shown: Hilux Double Cab – Invincible

Smart Entry & Push-button Start^o

This allows you to unlock the doors simply by pulling the handle and lock them again by pressing a button. The start/stop button starts the engine. All you need to do is carry the Smart Entry key with you.

4-Wheel-Drive switch

For added convenience and style, the Hilux is now equipped with a 4-Wheel-Drive switch instead of a lever.

ADDED PEACE OF MIND

Nothing calms the mind quite like high-tensile steel construction. Yet the Hilux goes further, adding reinforced side members and cross, plus seven SRS airbags. To help prevent accidents from the outset, it features an enhanced suite of Toyota Safety Sense technologies including a Pre-Collision System with Night-time Pedestrian Detection, Intelligent Adaptive Cruise Control, Lane Departure Alert with brake-induced steering, and Vehicle Stability Control (VSC). Practically everything in this vehicle is designed for your protection.

A BODY STYLE TO SUIT ALL YOUR NEEDS

The new Hilux has a body for every purpose. Whatever you're picking up, whether it's for work or play, you'll find the perfect vehicle. The interior has been redesigned to provide more space for all passengers. At the front, there's more shoulder room and headroom. The seat adjustment range has also been widened to suit individual body types. Plus, increased legroom at the rear means everyone arrives completely relaxed, ready for the next Hilux adventure.

Tops and bed liners (shown far left)

Toyota tops and bed liners are available in a range of options to suit every need, from aluminium retractable roll covers, leisure hardtops, hard-wearing plastic bed liners and a permanent spray-one LINE-X coating. The choice is yours.[§]

Style Pack^{*} (shown left)**

The Style Pack adds the front guard and fog light surrounds to enhance the exterior of your new Hilux. Inside, the scuff plates add protection for the sills, with 'Hilux' branding.

Parking Pack^{} (shown right)**

When space is at a premium, you'll find the guidance given by the Toyota parking system a big help in avoiding accidental scrapes. The Toyota parking aid system features ultrasonic sensors in the front and rear bumpers. These link to in-cabin alarms that grow progressively louder the closer you get to obstacles. Importantly, the front and rear alarms have different tones and can be switched off when not required. A cancellation switch is included for use when towing.

Towing Solutions (shown right)

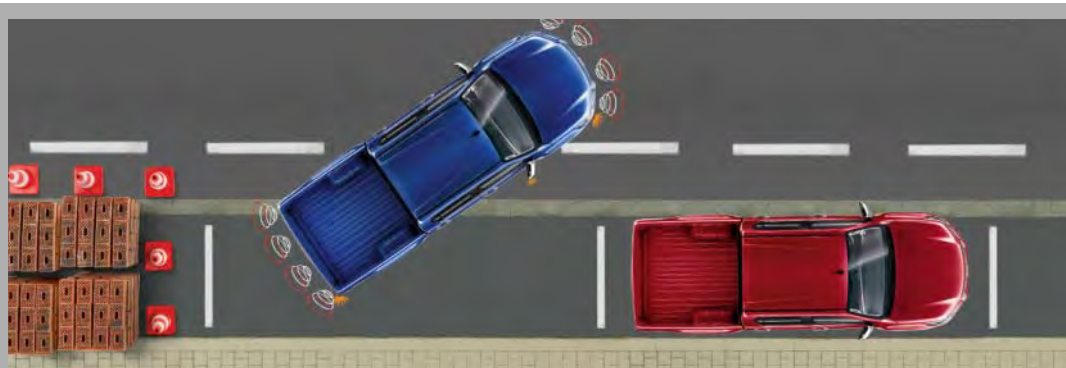

The Toyota genuine tow bar attaches to your vehicle's body for maximum towing stability and is designed to tow up to 3.5t, ideal for a small boat, caravan or plant machinery. Available with either 7-pin or 13-pin electric connector, the tow bar is purpose-designed for your vehicle and has a tough, anti-corrosion finish.

* Options should be ordered in conjunction with the vehicle.

§ High-over bar not available from hub.

° Excluding Active, Invincible and Invincible X grades.

** Excluding Invincible X.

TOYOTA HARDTOPS

**Commercial Hardtops**

This double-shell plastic (ABS) canopy offers strong cargo protection for heavy-duty purposes. It features a tinted rear window, drop-down front window for easy cleaning between deck and cabin and a high intensity LED dome light.

This hardtop is not compatible with Active grade vehicles.

Leisure Hardtops

The new Hilux leisure hardtop features a colour-coded*, double-shell plastic (ABS) canopy for extra robustness with lockable, hinged and tinted pop-out windows and interior battery-powered LED lights.

This hardtop is not compatible with Active grade vehicles.

Hard Tonneau Cover

Please see your local dealer for more information.

Models shown are for illustrative purposes only.

* Please be aware that the hardtop paint colour options may differ from the vehicle body colours of the Toyota Hilux.

TONNEAU COVERS & DECK ACCESSORIES

THE CARRYING CAPACITY OF THE NEW HILUX MEANS THAT YOU'LL WANT TO ENSURE YOUR CARGO IS SAFE AND SECURE. THE TOYOTA RANGE OF DECK ACCESSORIES ALSO OFFERS ADDITIONAL STORAGE AND ACCESS SOLUTIONS.

Models shown are for illustrative purposes only.

Aluminium Tonneau Cover (shown left)

Keep your load out of sight and locked away with the Toyota aluminium tonneau cover which is designed to be robust, tough and stylish.

Available for both Extra Cab and Double Cab across all grades.

Soft Tonneau Cover (shown left)

The black vinyl cover protects your cargo – whatever the weather.

Available for all cabs across all grades.

Deck Storage and Utility Accessories (shown right)

The utility boxes are practical, weather-proof and lockable storage areas, fitted to the front or the sides of the deck. The front box has a maximum recommended load capacity of 100 kg, while the sides can hold 30 kg each.

The side boxes can also be fitted in conjunction with a bed slide, shown below with the aluminium bed liner, available separately.

The bed slide glides along aluminium rails in the bed floor to help move loads up to 300 kg into the deck space. A textured anti-slip surface and hooks keep loads in place.

BEDLINERS AND PROTECTION

THE NEW HILUX IS DESIGNED TO BE TOUGH, DURABLE AND PRACTICAL. THIS RANGE OF HARD-WEARING TOYOTA BEDLINERS HELPS TO PROTECT THE DECK WHILST THE WHEEL ARCH AND DOOR GUARDS ALSO CREATE A MORE RUGGED APPEARANCE.

Bedliners (shown left)

The high-density polyethylene liner covers both the deck bed and side panels and is precision-moulded for maximum load space. Available as an under-rail application, additional rail caps can be added to convert it to an over-rail solution.

Also available for under-rail application are the aluminium bedliners (not shown), which offer an even tougher protective layer for the deck. Plastic wheel arch protectors complete the bed.

Protection (shown right)

Protect your asset and add a more aggressive stance with these colour fade-resistant hard plastic guards for both the wheel arches and the lower sections of your doors. Available for Extra and Double Cab, these products both enhance the rugged look of your Hilux and fend off scratches and scuffs.

Further protect your Hilux by adding a bonnet deflector, ideal for helping to divert spray, mud and stones away from the windscreen.

*** Not available on Single Cab.

§§§ Double Cab only.

GLOSSARY

LEARN MORE ABOUT THE ADVANCED ENGINEERING, SOPHISTICATED SAFETY SYSTEMS AND HI-TECH EQUIPMENT THAT MAKE HILUX A NATURAL LEADER.*

* Availability of technology is dependent on vehicle grade.

Follow-me-home headlights

Activated by the driver for added safety and practicality at night, the headlights remain lit for 30 seconds after parking your vehicle to illuminate your path to the front door.

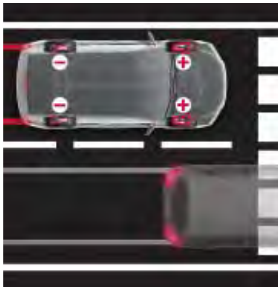

Smart Entry & Push-button Start

Instead of a conventional key, the Smart Entry & Push-button Start system features a transmitter that allows you to unlock the doors by pulling the handle and lock them again by pressing a button. To start or stop the engine, simply press the Start/Stop button. All you need to do is carry the Smart Entry key in your pocket or handbag.

Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD)

ABS prevents the wheels from locking while braking. EBD complements this by optimising brake force distribution between each wheel to compensate for different loads. Together the two systems help you to maintain steering control when braking heavily.

Brake Assist (BA)

If you attempt an emergency stop, BA will detect this and apply additional brake pressure. This enables ABS to work to its maximum potential.

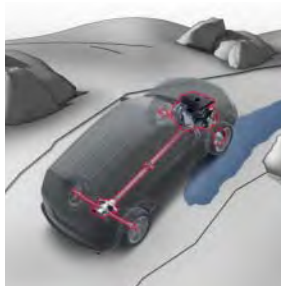

Vehicle Stability Control (VSC)

VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

Trailer Sway Control (TSC)

TSC suppresses any trailer sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway. The slip indicator bleeps when TSC is activated, and to warn drivers behind, the stop lights are illuminated.

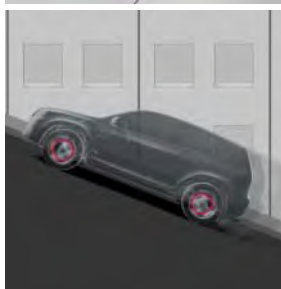

Active Traction Control (A-TRC)

Designed for on- and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to the one wheel that may be slipping, while distributing power evenly between the three that are not.

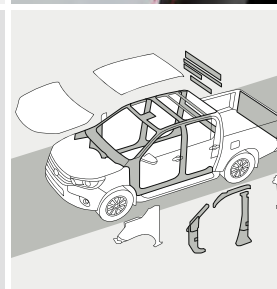

Driver's and front passenger Whiplash Injury Lessening (WIL) seats

During an impact at lower speeds and particularly from the rear, WIL seats and headrests cushion the head and back. This reduces the risk of whiplash injuries.

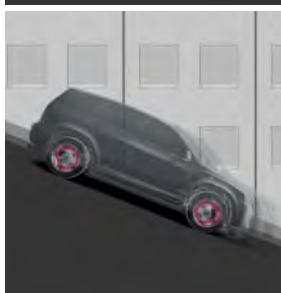

Hill-start Assist Control (HAC)

HAC helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back. It is activated by pushing the brake pedal harder after stopping as long as the transmission shift lever is in any forward gear position.

Robust body

All the sections of the body structure, including crossmembers, side rails and suspension towers, have been reinforced for exceptionally high rigidity.

Downhill Assist Control (DAC)

When descending off-road, DAC applies individual brakes to keep the vehicle stable and maintain its speed between 5 and 7 km/h. DAC works in forward or reverse, and when activated it requires no pedal input from the driver.

Supplemental Restraint System (SRS) – 7 airbags (Double Cab)

This model is fitted with seven airbags. They include driver's knee airbag, SRS airbags for both driver and front passenger, side airbags for the front seats, and SRS curtain shield airbags covering both the front and rear seat passengers.

OWNING YOUR NEW HILUX

Servicing your Toyota

Toyota Fixed Price Servicing means you will be sure to know the cost of your service up front. Expertly trained technicians using only genuine Toyota parts will carry out your service at one of over 200 Authorised Toyota Service Centres. The technicians will advise you on the correct service for your vehicle based on the vehicle's age, mileage and service history.

For more information visit toyota.co.uk/owners/service-mot-maintenance

Service Plans

Inflation-proof pricing with a monthly or one-off payment plan means one less thing to worry about. With Toyota Service Plans the price you're quoted is guaranteed for the duration of your plan. The service, parts and labour are all paid for either in monthly instalments or as a one-off payment at the beginning of your plan.

For more information visit toyota.co.uk/owners/service-mot-maintenance

Toyota Fixed Price Repairs using Genuine Parts

We offer fixed prices on a number of repair items for your Toyota giving you peace of mind when it comes to managing costs. Also don't forget we only use genuine Toyota parts, all of which come with at least 12 months' warranty (some even offer unlimited mileage warranties); and your vehicle will always be dealt with by a trained Toyota technician.

For more information visit toyota.co.uk/owners/service-mot-maintenance

MyT

Whether you're a long-term owner or have recently taken delivery of a new Toyota, there are lots of reasons to join **MyT**. Packed with time-saving and convenient features, **MyT** ensures everything you need to manage your vehicle ownership is in one place. You'll also gain access to **My Rewards** where you can enjoy great offers and discounts from big brands on everything from family days out to pampering as well as everyday deals.

For more information visit toyota.co.uk/mytoyota or download the **MyT** app now available on iTunes and Android.

Toyota Accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort and practicality. Also, because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a 5-year warranty when purchased together with the vehicle.

For more information visit toyota.co.uk/owners/parts-accessories

Toyota Roadside Assistance

When you buy a Toyota you will automatically receive 12 months' AA Roadside Assistance in the UK and Europe, free of charge. After the first year the cost of Toyota Roadside Assistance is £7 per month if paid by monthly Direct Debit, £72 per annum if paid by annual Direct Debit, and £76 per annum when paid by all other payment methods.*

For full terms and conditions please visit toyota.co.uk/owners/roadside-assistance

5-Year Toyota Warranty

Every new Toyota comes with a 5-year/100,000-mile (whichever comes first) manufacturer's warranty, covering you against the unlikely event of a manufacturing defect causing a mechanical fault.

For full details, please ask your official Toyota Centre or visit toyota.co.uk/owners/warranty/toyota-warranty

Corrosion Cover

The 6-year unlimited mileage cover protects against rust perforation affecting sheet metal body panels as a result of a manufacturing fault. This warranty can also be transferred to any future owner throughout the 6-year period. On pick-up beds the corrosion cover term is 3 years.

Rust and Paint Cover

The 3-year unlimited mileage cover protects against defects and surface rust as a result of a manufacturing fault. On pick-up beds the rust and paint cover term is 1 year.

* Prices correct at time of going to print.

Toyota Extended Warranty

You have the choice of either the low-user option that restricts you to 15,000 miles per year or 12 months whichever comes first or the 12-month unlimited mileage cover. You also have a choice between 12 and 24 months' cover (subject to vehicle eligibility). The 24-month option will show a saving over two 12-month Toyota Extended Warranty policies and is available with the low-user option at 30,000 miles or 24 months whichever comes first.

The Toyota Extended Warranty can be renewed until the vehicle is 12 years old with less than 100,000 at point of sale, and if a part covered by the Toyota Extended Warranty suffers electrical or mechanical failure at any time during the term, Toyota is committed to fixing it. You don't pay for replacement parts or labour.

For more information visit toyota.co.uk/owners/warranty/extended-warranty

Toyota Business Plus

Designed to support business operators and company vehicle drivers, Toyota Business Plus is our promise to help you procure, manage and upgrade your fleet quickly, efficiently and cost-effectively. Business Plus unites our passenger car and commercial vehicle ranges, with tailored services, ensuring fleet managers can keep their company car drivers happy and business costs down.

Our specialist Business Centres promise you same day access to a business manager or dedicated sales executive. With business offers and interactive wholelife cost modelling tools which consider emissions, fuel economy, servicing, insurance and residual value data, our advisers can accurately compare tax costs against any competitor. Whenever servicing is due, we can offer fixed-price servicing, free local vehicle collection and delivery (with wash and vac), plus a guaranteed booking within 3 days.

Special offers, fixed-price fleet servicing, specialist fleet insurance, business daily hire, Toyota Fleet Financial Services, extended test drives and a dedicated Business Centre Network are just some of the services business customers can expect from Toyota Business Plus.

PLAYING IN THE SANDPIT

LEGENDARY TOUGHNESS SINCE 1968

The Hilux is deservedly proud of its long history of resilience. Ever since its launch in 1968, this iconic pick-up has left its mark wherever it goes. It has travelled the world, racing through the African desert, conquering volcanoes, exploring the Amazon and reaching the North Pole. In 2019, the Toyota Hilux climbed the podium of the Dakar Rally once again. Hilux's legendary strength and reliability are renowned across the globe. No wonder it's the most sold pick-up in the world.

ALWAYS A
BETTER WAY

JUST ANOTHER HILUX DAY.

While every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This brochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification. For the latest specification and availability, we ask that you contact your local Toyota Centre. Vehicle body colours may differ slightly from the printed images in this brochure.

Quoted mpg & CO₂ figures: Figures are provided for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real-life driving results. Fuel consumption and CO₂ produced varies significantly depending on a number of factors, including the accessories fitted (post-registration), driving style, conditions, speed and vehicle load.

All models and grades are certified according to the World Harmonised Light Vehicle Test Procedure (WLTP), which replaces the New European Driving Cycle test procedure (NEDC).

All CO₂ figures quoted are NEDC equivalent. This means the CO₂ figures are based on the new WLTP test procedure but calculated (using a standard European calculation method) to allow comparison with the NEDC test procedure and will be used to calculate vehicle tax on first registration. All mpg figures quoted are full WLTP figures.

More information can be found by visiting: www.vehicle-certification-agency.gov.uk/fcb/wltp.asp.

The use of the term 'Toyota Accessories' should not be taken to imply that the products on the accessory pages are actually manufactured by the Toyota Motor Corporation or Toyota (GB) PLC. Toyota (GB) PLC is continually updating and changing specifications of accessories and reserves the right to do so at any time without prior notice.
